## Correction

"A Fast Parallel Algorithm for the Poisson Equation on a Disk," J. Comp. Phys., 169, pp. 151–192, 2001.

The following typos in the reprint of the above paper should be corrected.

In step 5 of the Algorithm 3.1 on page 157 of the article, the formula for v<sub>0</sub>(r<sub>l</sub>) for l = 1 should not have the term log r<sub>l</sub>. The correct form of the step 5 is as follows:
 Combine coefficients v<sub>n</sub><sup>+</sup> and v<sub>n</sub><sup>-</sup> as defined in (15) and (17):

For 
$$l = 1, ..., M$$

$$v_0(r_l) = \begin{cases} v_0^-(r_l) + v_0^+(r_l); & \text{if } l = 1; \\ \log r_l \ v_0^-(r_l) + v_0^+(r_l); & \text{if } l \neq 1 \end{cases}$$

$$v_n(r_l) = \overline{v_{-n}(r_l)} = v_n^-(r_l) + \overline{v_{-n}^+(r_l)}, \qquad n \in [-N/2, -1]$$

2. In step 6 of the Algorithm 3.1 on page 157 of the article, "For  $l=2,\ldots,M$ " should be corrected as "For  $l=1,\ldots,M$ ". Note that l now starts from 1.
